Our presence in the aluminium industry

About STAS

STAS Inc. is a Canadian based company specialized in the development, fabrication and commercialisation of process equipment for the global aluminium industry.

Since 1989, we have been providing aluminum producers around the world with **innovative and technologically advanced solutions** that meet the highest demands of the industry.

We are a world leader in providing various equipment to improve productivity and the quality of molten aluminium in several areas of the aluminium production: carbon, electrolysis, casthouse and crucible shop.

We have delivered more than 1500 equipment units and thousands of projects in more than 40 countries, making us a **key supplier**.
